

# CASE STUDY

**Futureproof Your Business with Azure**

**softserve**

## How do you create an appetite for innovation and serve cloud-based operational efficiency as the main course?

**A**n enterprise's longevity requires the ability to analyze market trends, reduce the time-to-market for a new product or service, and migrate to the cloud.

Our client—an international quick-service restaurant chain—needed a secure and scalable cloud-based data warehouse to transform the operations for their 6,000+ restaurant locations.

SoftServe's mission? Provide a scalable, cost-effective solution and deliver it with Microsoft Azure. It had to avoid extensive disruption and minimize the manual effort to implement an entire environment on-demand.

SoftServe succeeded by adopting the Infrastructure as Code approach across the entire project. Each component or environment change was automatically tested before being evaluated in the code review process.

This expanded our client's DevOps capabilities, while giving them complete visibility into every phase of this project.

By using Microsoft Azure to build a cloud-based data warehouse, our client now:

- Accommodates growth on-demand with auto-scaling
- Stays connected with on-prem environments
- Ensures sensitive data transmitted via the internet is secure using virtual network integration, service endpoints, and whitelisting
- Complies with international security solution standards

Looking for a scalable, flexible, and cost-effective way to evaluate market trends and speed up your time to market?

**LET'S TALK** about how SoftServe can help you implement an Azure-based cloud infrastructure to futureproof your business.

## ABOUT US

SoftServe is a digital authority that advises and provides at the cutting-edge of technology. We reveal, transform, accelerate, and optimize the way enterprises and software companies do business. With expertise across healthcare, retail, energy, financial services, and more, we implement end-to-end solutions to deliver the innovation, quality, and speed that our clients' users expect.

SoftServe delivers open innovation, from generating compelling new ideas, to developing and implementing transformational products and services.

Our work and client experience is built on a foundation of empathetic, human-focused experience design that ensures continuity from concept to release.

We empower enterprises and software companies to (re)identify differentiation, accelerate solution development, and vigorously compete in today's digital economy. No matter where you are in your journey.
