GEMINI AGENTIC LAUNCHPAD

ROI first approach to Agentic Enterprise Operations

Accelerate to enterprise AI reality with Google Cloud Agent Development Kit, "ADK". By leveraging Agentspace, Application Integration, Apigee, and Vertex AI, enterprises can rapidly build, govern, and scale AI agents that execute trusted, repeatable business processes with measurable ROI.

WHY NOW

Many enterprises are experimenting with AI but fail to scale beyond pilots. With **Gemini Enterprise + Apigee/Application Integration**, enterprises unlock agentic actions grounded in enterprise-truth deterministic workflows that deliver business value in a production-ready way while maintaining security, compliance, and governance.

The Gemini Agentic Launchpad for Google Cloud delivers three functional agents in just 30 days, designed to go beyond pilots and empower enterprises with solutions that are built for scale and production.

WHAT'S INCLUDED

- ✓ **Rapid Assessment** of the identified use case including collecting necessary business case metrics
 - ✓ **Agentic Workflow design & development** around your data, tools, and goals
 - ✓ **Agentic AI Ecosystem Architecture & integrations plan** design
- ✓ High level **Business Case development** for your use cases and overall agentic opportunity
 - ✓ Development of governance-ready **Rollout Plan** for enterprise-wide agent rollout & adoption
 - ✓ **Enterprise Truth:** deterministic workflows ensure accuracy and compliance
